

# Top tips to help keep kids safe online.

Here are some tips and tricks to help protect kids when posting on social media.

- 01** Turn on **comment filters** and block offensive & inappropriate words.
- 02** Using privacy settings are ideal, but if not make sure that **parents are in charge** of the account.
- 03** For young kids, parents can include in their bio that the account is **being monitored** by parents.
- 04** Check all content to make sure **no personal information is being given away** in the foreground or background of video content and avoid tagging locations, schools & clubs.
- 05** Don't include first & last names, school details, sporting club names, or other **location-revealing information**.
- 06** Where possible, **turn off** the ability for strangers to send direct or private messages.
- 07** **Turn off geolocation** for social media apps.
- 08** Familiarise yourself with **block & report buttons** and other safety tools on the app.

*Hint* TikTok has lots of them!

# Top tips to help keep kids safe online.

Here are some tips and tricks to help protect kids when posting on social media.

“ Turn on **comment filters** and block offensive & inappropriate words. ”

Using privacy settings are ideal, but if not make sure that parents are in **charge of the account.**

For young kids, parents can include in their bio that the account is **being monitored by parents.**

Check all content to make sure **no personal information is being given away in the foreground or background of video content**, and avoid tagging locations, schools & clubs.

Where possible, **turn off** the ability for strangers to send direct or private messages.

“ Don't include first & last names, school details, sporting club names, or other location-revealing information. ”

Turn off geolocation for social media apps.

Familiarise yourself with block & report buttons and other safety tools on the app.

*Hint* TikTok has lots of them!
